

# TROUT TRACKERS 2024

This was our first year collecting quantitative data on spawning Coastal Cutthroat Trout on the island! Community volunteers walked reaches of 7 creeks once a week from February to May documenting the presence of trout. Here are our observations:

**36**

Adult trout

**1480**

Juveniles

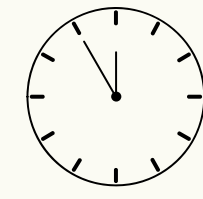

**17**

Redds

**21**

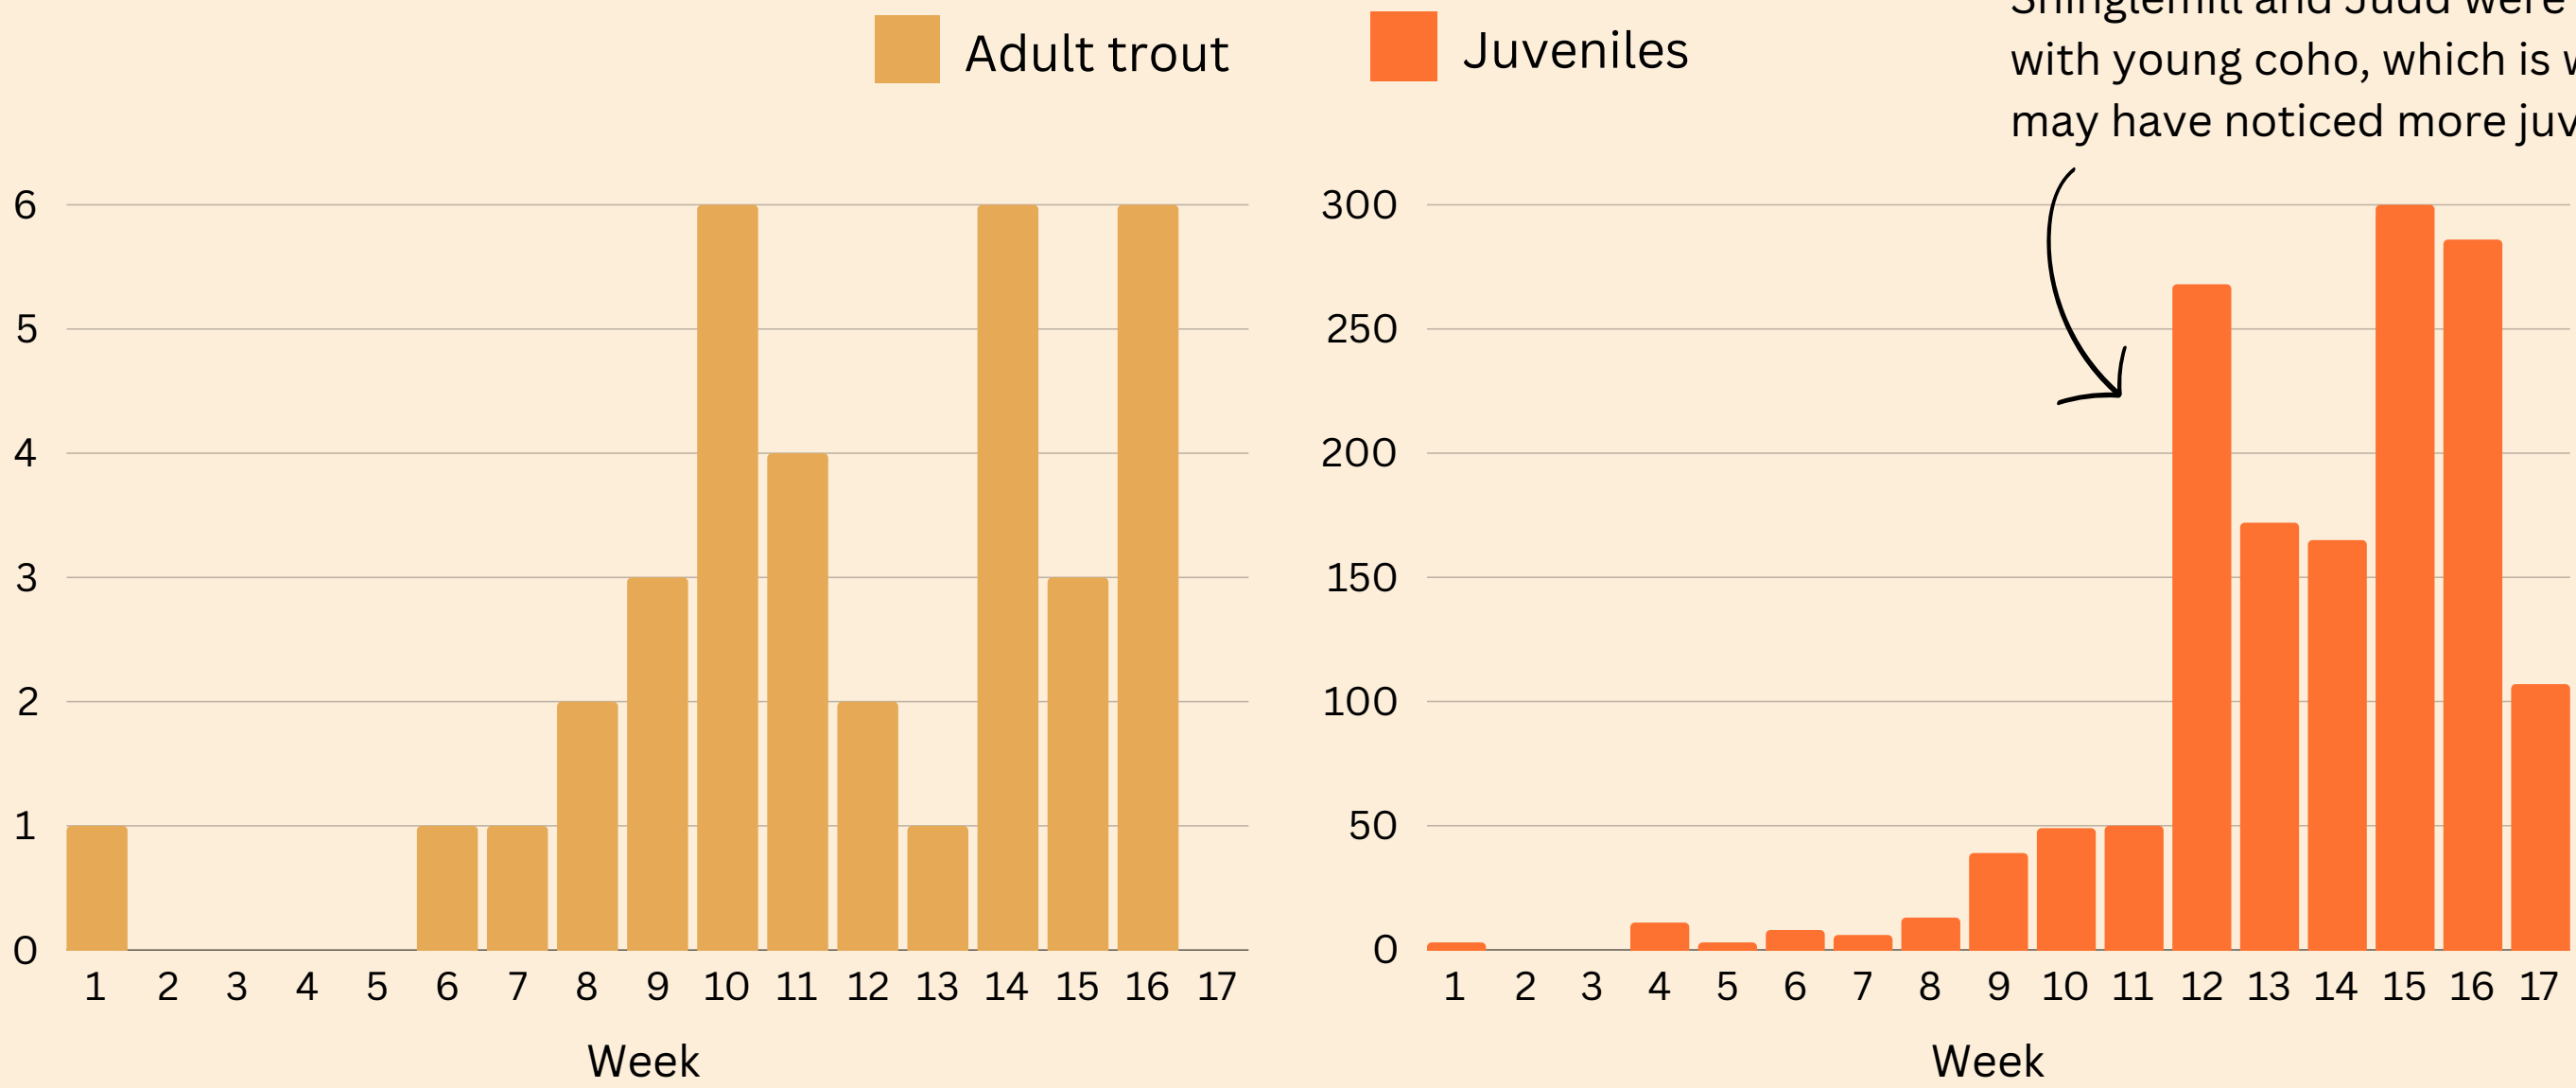

Volunteers

**136**

Volunteer hours

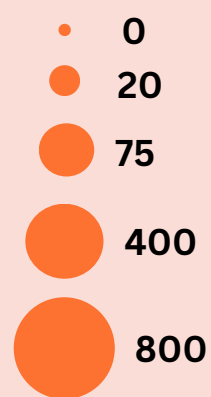

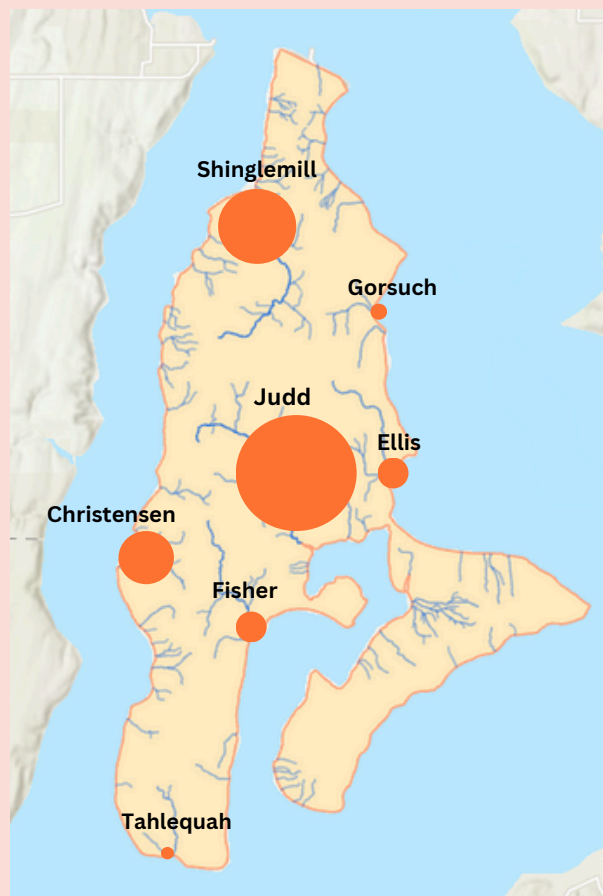

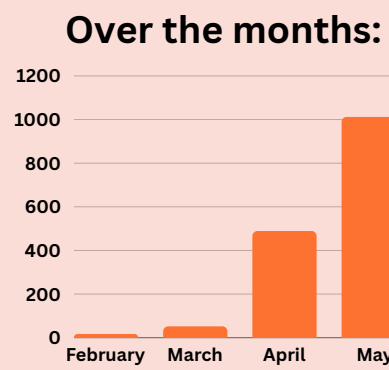

## Weekly Fish Counts

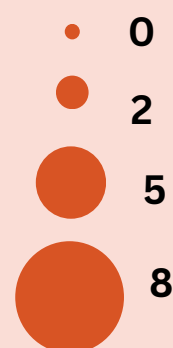

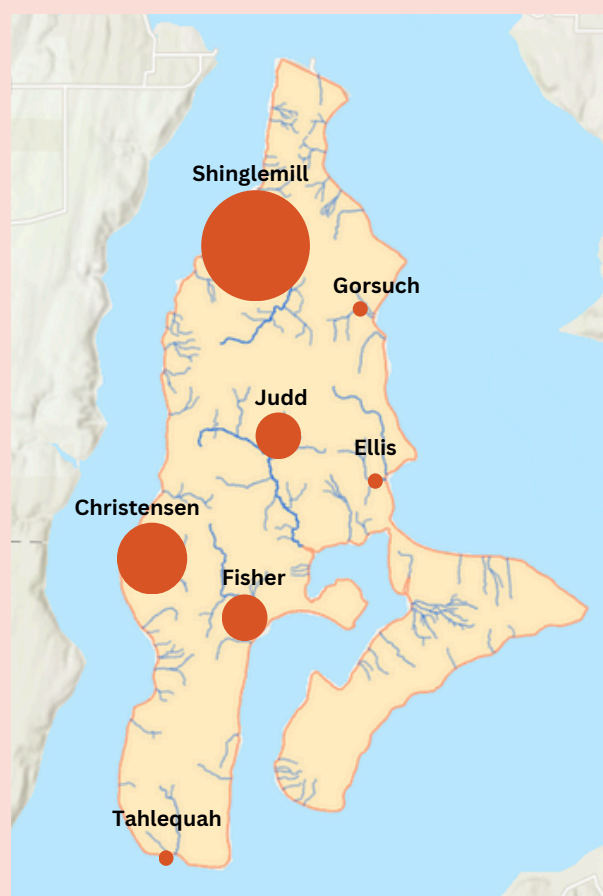

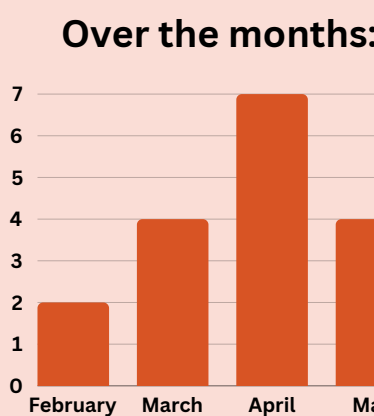

At the end of week 11 in April, Shinglemill and Judd were stocked with young coho, which is why some may have noticed more juveniles!

## Counts Per Stream

Fish:

Redds:

## Wildcam Observations

	Judd	Christensen	Tahlequah	Gorsuch	Fisher	Shinglemill
River Otter	✓	✓	✓	✓	✓	✓
Raccoon	✓	✓	✓	✓	✓	✓
Coyote	✓	✓			✓	
Deer	✓	✓	✓			
Squirrel	✓	✓				
Passerines	✓	✓	✓			
Beaver	✓	✓				
Mouse	✓	✓	✓			
Mink	✓			✓		
Hawk		✓				
Heron	✓	✓		✓		
Waterfowl	✓	✓
